

## COVID-SAFE KNIFE SHARPENING

Colorado Knife Sharpening is proud to do all we can to make your stay-at-home experience as non-stressful as possible.

- We all know there is nothing worse than dull kitchen knives when you must cook at home.
- We will bring our mobile service vehicles to your home or business and service your knives on the spot.

To be as safe as possible for you as well as us:

- When dropping off and picking up your knives, we will always maintain safe separation and wear masks.
- We cannot enter your home or business. When we arrive for your appointment, you must bring your knives out to us.
- While we service your knives, you can wait in the comfort of your home or business.
- When your service is complete, you will return to our vehicle to pick up your knives and process your payment.
